PROGRAMME LEARNING OUTCOMES

- * To help students gain a grasp of major philosophical options available in the field of education.
- * To develop among students an insight into modern theories of learning and development.
- * To help them understand and appreciate various social, cultural and ideological perspectives on education in a multicultural and multilingual Indian society.
- * To help students to acquire research and data-analysis skills using computers essential to shape them into effective educational researchers.
- * To help students to develop research and presentation skills expected for their role as prospective teacher educators and educational researchers.
- * To help them to develop knowledge, skills and mind set appropriate to various specialists' roles such as curriculum developers, educational administrators, guidance counsellors, designers of teaching learning resources etc.
- * To motivate and empower students for undertaking research to theorize about education as also to develop creative solutions to day to day school problems.
- * To initiate them into contemporary educational discourse in the context of national concerns and issues of access and quality in education.
